

BIO Cecilia Serna

I was born and raised in El Paso Texas. I graduated Salutatorian and was even a cheerleader. I love being involved and staying in the know. I met and married my first love at Texas A&M University and have been married for 37 years.

We hold on firmly to our faith. Our faith has helped us through life's struggles and adversity.

I am not ashamed to say I was on public assistance. I started working at the age of 17. I worked full time for the nation's largest health care network for 32 and 1/2 years. I excelled in that environment because I was able to combine my passion of uncompromising patient care and hands-on involvement. I was instrumental in troubleshooting workflow issues. I coordinated and implemented new sophisticated technology within the department and hospital wide I had oversight for Pharmacy rebuild. My 100% commitment to quality assurance allowed me in identifying, resolving and adherence to DEA, USP, State Board of Pharmacy and Nursing regulations.

I am an animal lover. Our household is run by 2 dogs, 2 cats and 3 geckos. I love gardening, rock hunting and visiting our parklands. I am the mother of 8 incredibly smart children. As parents we must be doing something right. Our children have attended Rice University, Texas A&M Corpus Christi, Texas A&M College Station, St Edward's University, parochial school in Austin and BHS.
